Based on the fund's portfolio returns as at 10 July 2026, the Volatility Factor (VF) for each Class of the Fund is indicated and classified as in the top right corner of the first page (Source: Lipper). "Very high" includes Funds with VF that are above 16.495 "High" includes Funds with VF that are above 11.915 but not more than 16.495. "Moderate" includes Funds with VF that are above 8.66 but not more than 11.915. "Low" includes Funds with VF that are above 4.57 but not more than 8.66. "Very Low" includes Funds with VF that are above 0.000 but not more than 4.57 (source: FIMM). The VF means there is a possibility for the Funds in generating an upside return or downside return around this VF. The Volatility Class (VC) is assigned by Lipper based on quintile ranks of VF for qualified Funds. VF and VC are subject to monthly revision or at any interval which may be prescribed by FIMM from time to time. The Fund's portfolio may have changed since this date and there is no guarantee that the Funds will continue to have the same VF or VC in the future. Presently, only Funds launched in the market for at least 36 months will display the VF and its VC.
